Lesson Plan 1: The 4 R's

Name _____ Date _____

Recycling Solid Waste Worksheet

Review the information on Recycling at the Waste Management website

www.thinkgreen.com/recycling and answer the following questions.

1) Which examples of recycling – plastic, glass, metals, electronics or batteries, are new to you and your group?

2) Do you know of examples of recycling taking place at your homes, in your school, or in your community?

3) Which of the recycling could be implemented at your school? You might want to discuss this possibility with the appropriate teacher or other school staff.

4) Which of the examples of recycling could be implemented at your home?

5) Additional student question(s)
